

Folding storage case by Laura Parsons.

### Requirements.

Below is a list of fabric sizes, but you can make this out of patchwork pieces as I have done with one of the samples, or from fabric you already have, as long as you get three folds it can be pretty much any size.

Spinning Weal will provide vinyl for the pockets, the Decovil stabiliser, zips and elastic. Please bring along:

- Sewing kit and sewing machine
- 30cm x WOF (width of fabric= 42" or 112cm) main exterior fabric,
- 30cm x WOF main contrasting/inside fabric,
- 30cm x WOF contrasting fabric for binding pockets and main.
- One or two large buttons if desired.
- Thread to construct and thread to quilt.

You can make your case as large or small as you like, so if you already have fabric or want to patchwork pieces together bring that along and we can work out the size on the day. 😊
